Re: James A. Dalke
KARR(AM), Kirkland, WA
Facility Identification Number: 20669
Special Temporary Authority (STA)
BESTA- 20191217AAB

Dear Mr. Dalke:

This is in reference to the request filed on December 17, 2019. You requested an extension of the STA granted on February 10, 2015, to continue operating from an alternate site to allow time for our staff to take further action on BP-20190904ACG.¹ In support of the request, we noted that the application remains pending at this time.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is GRANTED, and you may continue to operate using the following facilities:

¹ KARR(AM) is licensed for DA operation on 1460 kHz with 5 kW day and 2.5 kW night, and BP-20190904ACG proposes a new transmitter site and ND patterns using reduced power.

Geographic coordinates	47° 37' 44" N, 122° 10' 10" W (NAD 1927)
Frequency	1460 KHz
Hours of operation	Unlimited
Operating power	0.25 kW (day and night)
Antenna type	31 meter long wire antenna

You must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **June 22, 2020**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau
